Some current issues of professional development in Information Security

- Various trainings and certifications
  "Which one(s) are best fit for me?"
- Unclear of effective skill development method
  "How to develop professional level security staff?"
- Necessity to have common understanding of career path as well as individual cert positioning
  "Where is my cert ranked?"
  "How to become CSO?"
  "It is difficult to maintain my cert."

Need to establish industry-wide cooperation!

Logo and its origin

Human Resource(**人材**)
→Human Treasure(**人財**)

"People" is the last shield to make sure the level of information security is sufficient, therefore it is very important to raise as many capable "people". This is the idea behind the logo.
